

# Blairadam Community Fibre Partnership Update

Full Fibre Broadband Upgrades for Blairadam, Blairforge, Keltybridge, Maryburgh and surrounding areas.

We recently held a very successful meeting at the Tabernacle Hall in Keltybridge, which has significantly increased local interest in the proposed full fibre broadband upgrade, however we still need more people to register their interest in this upgrade to enable us to secure the government funding which will make it possible.

If you have not yet registered your interest, please visit our website and click on the “Register Your Interest” link - <http://blairadam.net>

The Blairadam and surrounding area upgrade is being coordinated under the Cleish Hills Community Interest Company which has successfully upgraded several communities around Cleish - <http://www.cleish.org.uk/>

Cleish Hills and the Blairadam area has some of the country’s slowest broadband. This community project will upgrade everyone from ageing copper to full fibre broadband to your property. Enabling you to get any broadband speed you desire. Your upgrade will be future-proofed for many generations to come, part of a stable and reliable national network, with all maintenance the responsibility of BT/Openreach.

The upgrade will cost you nothing, thanks to UK government and Local Authority funding. But requires individual households and businesses to come together as a community so we can achieve the necessary number of upgrade vouchers to make the upgrade viable. The upgrade may even increase your property value by 3 per cent (according to a London School of Economics study).

If you have any questions about the full fibre upgrade, please e-mail us on [info@blairadam.net](mailto:info@blairadam.net)

Thanks

Blairadam Community Fibre Partnership (<http://blairadam.net>)
